Lean Six Sigma Training

• Three Days LSS

Duration: 3 days

Description: A complete course that will bring the students at LSS Green Belt level: Overview of LSS methods, custom examples, hands on methodology. During this training, students will learn the history and purpose of Lean Six Sigma, understand the concepts and key tools to use for process fixing and simplifying. Customized examples will be used to illustrate the tools, and a fun quizz will end each day. Each student will receive printed material with the course content and a signed certificate for the completion of the course. Information about Green Belt certification will also be provided.

Content: History of LSS. Basic statistics. Project and change management principles. Financials. DMAIC phases. Lean tools. Continuous improvement.

Audience: The Three days LSS course is designed for employees and individuals involved in business processes enhancement and simplification. Some basic quality background knowledge is required, as well as scholar understanding of mathematics and statistics and business processes concepts.

Location: Course available in-situ (your premises) anywhere in the world. We can also organise trainings in Brussels or in Budapest (up to 20 students). For any on site training, a meeting or training room with projection device is required. Course language is English or French.

Prices: 1500€ to 3000€ depending on location and student number.

These prices are valid for a class of 10 students or less, on the premise of customer. Additional fees may apply for extra trainees. External courses can be organized on demand and for any number of trainee (seminars, training days). Contact us for a quote!
