

Programme Management

Duration: 1 day.

Description: Project success is highly dependent on support from senior management. This will happen if projects are aligned with company vision and strategy. Thus, choosing projects when resources are limited or risks important is a key element to company achievements. This course is designed to provide the main elements and help management and executive teams to decide on which projects to invest safely. Each student will receive printed material with the course content and a signed certificate for the completion of the course. Information about Project Management certifications will also be provided.

Content: Portfolio analysis. Risk analysis. Project selection. Programme management. Organisational change management. Negotiation. Stakeholders management. Team building.

Audience: The “One Day - Programme Management” course is designed mainly for Programme managers, business managers and senior executives who want to improve their management performance. Some project management knowledge is needed to attend the course.

Location: Course available in-situ (your premises) anywhere in the world. We can also organise trainings in Brussels or in Budapest (up to 20 students). For any on site training, a meeting or training room with projection device is required. Course language is English or French.

Prices: 800€ to 1200€ depending on location and student number.

These prices are valid for a class of 10 students or less, on the premise of customer. Additional fees may apply for extra trainees. External courses can be organized on demand and for any number of trainee (seminars, training days). Contact us for a quote!
