

### One Day - PM Principles

Duration: 1 day

Description: The “One Day - Project Management Principles” training course is an introduction to the art of managing projects. It will give participants an overview of the main concepts of project management, a quick start guide, highlight the most critical and delicate parts of a project and will allow new project managers to avoid the most common pitfalls. It is also a great course for executives or managers that are on the “client side” of the project to acquire the common language of project management. Each student will receive printed material with the course content and a signed certificate for the completion of the course. Information about Project Management certifications will also be provided.

Content: What is a Project. Project phases. Managing effectively a project: dealing with changes, risks and stakeholders. Impact to the Organisation.

Audience: The “One Day - Project Management Principles” course is designed for employees and individuals involved in business projects, newly appointed project managers as well as managers and executives who want to understand how projects are conducted. No specific knowledge or qualification is needed to attend the course.

Location: Course available in-situ (your premises) anywhere in the world. We can also organise trainings in Brussels or in Budapest (up to 20 students). For any on site training, a meeting or training room with projection device is required. Course language is English or French.

Prices: 600€ to 1000€ depending on location and student number.

These prices are valid for a class of 10 students or less, on the premise of customer. Additional fees may apply for extra trainees. External courses can be organized on demand and for any number of trainee (seminars, training days). Contact us for a quote!
